

TB Step Shifter

USER MANUAL

Purpose

Moves selected harmonics to create new pitch and tone without shifting the whole sound in the usual way.

Controllable properties

Each control is listed by its panel name. Use the description to decide what to listen for, then make small changes in the context of the music.

Control and settings	What it changes
Bypass Range: Off, On Default: Off	Turns the complete effect off or on for a direct before-and-after comparison.
Colorize Range: Off, On Default: Off	Adds a warmer, more colored character to the shifted harmonics.
Mix Range: 0% to 100% Default: 100%	Blends the original sound with the processed sound.
Pitch Range: -24 st to +24 st Default: +12 st	Moves the pitch of the processed sound up or down.
Program Range: 7 factory programs Default: Init	Loads a factory starting point. Adjust the controls afterward to fit the current sound.
Resolution Range: Fast, Fine Default: Fast	Chooses faster response or finer harmonic detail.
Step Range: 0% to 100% Default: 50%	Chooses which part of the harmonic series is moved by the Pitch control.
