Controllable properties

Each control is listed by its panel name. Use the description to decide what to listen for, then make small changes in the context of the music.

Control and settings	What it changes
Auto Musical Range: 0% to 100% Default: 0%	Changes correction strength according to musical movement, keeping passing notes more natural at lower settings.
Bypass Range: Off, On Default: Off	Turns the complete effect off or on for a direct before-and-after comparison.
Formant Shift Range: -6 to 6 Default: 0	Changes the apparent vocal or instrument size without moving the corrected note.
Key Range: C, C#, D, D#, E, F, F#, G, G#, A, A#, B Default: C	Chooses the root note of the song.
Scale Range: 16 choices Default: Major (Ionian)	Chooses which notes are allowed during pitch correction.
